ARBITRATION IS NOT LIKELY

Operators Will Decline This
Offer of The Miners.

This Will Doubtless Be the Announce-
ment at Conference to Be Held
Monday.

OHIO MINES TO REMAIN IDLE.

Seranton, Pa., April 7.—It is learned on indisputable authority that the independent operators in session at Wilkesbarre yesterday decided against the acceptance of the arbitration proposition made by President John Mitchell. While some of them said they would have favored its acceptance had it been made before the cessation order was issued, today they were practically unanimous in opposing its acceptance. All of the superintendents of the big coal companies hereabouts predict that the proposition will be rejected at the conference to be held on Monday next.

Report Is Confirmed.
Wilkesbarre, Pa., April 7.—It is understood from a reliable source that independent coal operators who held a secret meeting yesterday agreed to disapprove of the arbitration proposition made by President Mitchell. They took the ground that there are no questions for arbitration.

Mines to Remain Idle.
Cleveland, O., April 7.—Our mines will remain idle until a settlement is reached with the mine workers," said F. S. Brooks, secretary of the Ohio coal operators, who met here today. There will be no attempt to use strikebreakers or conduct a warfare against the union men, as the operators have no feeling of bitterness against miners.

Notice to Move Out.
Wilkesbarre, Pa., April 7.—The Hillside Coal and Iron company is today serving notices on the occupants of the company's houses that if they do not move in a few days they will ask the aid of state troops to remove them. Hundreds are leaving the region to obtain work in other districts.

TROUBLE NOW BREWING.
Consul Murphy Says a Disruptive
Force Is at Work in China.

San Francisco, April 7.—Allen W. Murphy, of Berkeley, who has been vice consul at Tien Tsin, China, for more than three years, arrived from the Orient on the transport Sheridan. Speaking of the situation in China, Mr. Murphy said:
"There are undoubtedly strong disruptive forces at work in China with no real government to control them. A crisis may arrive at any moment demanding the intervention of an armed force for the protection of the foreign residents."
"The boycott on American goods, which was not considered serious at first, has certainly taken on a serious aspect, and the agitation is by no means over. In the north the boycott was suppressed by Yuan Shin-Kai, viceroy of Chi Li province. Northern China is now in a peaceful state and there are no signs of unrest there."
"In the south the movement has received a degree of encouragement from the official class. Large quantities of American goods that were shipped last year are still in Chinese warehouses because the consignees refused to accept them. I do not think the next report of trade conditions will show that our exports to China have increased."

Killed While at Play.
Los Angeles, Cal., April 7.—Dal Norton, a 15-year-old pupil of Harvard school for boys in this city, died from being struck by a 12-pound shot thrown by Joseph Hlodday, a school mate, while the track team was putting the shot on the play ground.

Attempt Wholesale Killing.
Aiton, Ill., April 7.—Christopher Davis, aged 68, shot and instantly killed Chas. Stuckenberg in Innenger's saloon, attempted to kill Fred Innenger, saloonist, and then attempted to kill himself. Davis was immediately arrested and taken to Edwardsville jail.

AMERICAN MISSIONARY
KILLED BY PIRATES.
Hongkong, China, April 7.
Three passenger boats
were held up by pirates 14
miles from San Hing Chy. It
is reported an American mis-
sionary was aboard one of
the boats and was killed.

WEARS FEMALE ATTIRE.

An Ohio Music Teacher's "Plays"
Against Mary Walker.

Washington, O., April 7.—Prof. Randolph Milburn, a music teacher, who created a sensation by appearing on the streets in woman's clothes, no longer is barred from female costume. A large silver badge, with the inscription "Randolph Milburn, I am a man," worn in a conspicuous place, gives him the right to dress as a woman if he so desires.
He claimed that as Dr. Mary Walker was wearing man's clothes, he with equal legality could wear woman's clothes. He searched the legal precedent, and discovered, he says, that he may dress as he desires, provided that he makes no attempt at deception as to his sex.
He says he has legal advice that wearing a heavy beard and mustache or a conspicuous sign, stating his name and the fact that he was not a woman, will bar prosecution.

ONE WEEK MORE

MAY SEE THE RAILROAD RATE
BILL DEBATE OVER.

It Is Also Declared That Satisfac-
tory Bill Will Be
Passed.

Washington, April 7.—In making an effort to get the senate to agree upon a date for taking a vote on the railroad bill Mr. Tillman yesterday made the important statement that one week more probably would exhaust the general debate on the measure. He failed, however, to secure the consent of Mr. Aldrich, who said that he would not be willing to agree to vote on the bill until it was more nearly perfect than it now is.

A Satisfactory Bill.
Washington, April 7.—Railroad rate legislation was under discussion at the White House. Senator Rayner, of Maryland, who has been active in his insistence on such legislation, had a conference by invitation with the president yesterday. After the conference, although Senator Rayner, like other democratic senators who have considered the subject with the president during the past few days was particularly reticent, he admitted he had discussed the rate legislation with the president, but would not disclose the result of the conference. Senator Rayner expressed the opinion that a rate bill satisfactory to the friends of the legislation would be passed by the senate and perhaps by a much larger majority than is now expected.

Following the visit of Senator Rayner, Senators Allison, of Iowa, and Nelson, of Minnesota, had a talk with the president. They, too, discussed the rate situation, but declined to discuss the subject.

THE PUBLIC LIBRARY.

Miss Haynam Is to Have a Second
Assistant.

President E. W. Hagley, of the Carnegie library board, has received a letter from Andrew Carnegie's secretary stating that the picture of Carnegie's Scotland home, "Skibo Castle," could not be furnished him except in a small photograph, but that he would send a photograph. President Hagley has an enlarged photograph of the birthplace, and wants the present Scotland home. He will have the photograph of "Skibo" castle enlarged when received, and hung in the library here.
Miss Mamie Haynam, librarian, has been given a desk assistant during the next few weeks. Miss Haynam and her regular assistant will be busy with cataloging for some time.
A joint graveled driveway for hauling supplies, etc., was decided on between the Grace Episcopal church and Carnegie library. The library and church each to stand half the expense.

THE BUG NUISANCE.

Once More the High School Building
Has Been Infested.

Bugs, of a species which has never been fully determined, have made their appearance in the English room at the Paducah High school building again, but every step has been taken to prevent a multiplication.

These peculiar little bugs overrun the building two years ago and caused a temporary suspension of school. The attendance was out down until some of the rooms did not have a corporal's guard, but the authorities held out of the matter this time while it is in its infancy, and the janitor completely fumigated and killed the few bugs that were seen.
It is presumed they are from pigeon roosts in the attic of the building, but the attic has been sealed and the birds excluded. All danger of a multiplication of the pests had been precluded, it is thought.

WIRE INSPECTOR APPOINTMENT DELAY

May Cause Increase in Insur-
ance Rates In City.

Local Agents Have Been So Advised
By the Insurance
Board.

THE COUNCIL IS TO ACT SOON

Mr. C. C. Rose, secretary of the local insurance board, had a letter today from the secretary of the Kentucky and Tennessee insurance board which has jurisdiction in Paducah, stating that, unless something was done very soon about the appointment of an electrical wire inspector, the companies would have to increase the rates.

There has been no inspector for about two months. The former inspector resigned his position to go with the insurance board for Kentucky and Tennessee, and the council has done nothing definite about approving the appointment of a successor, as it has been waiting to have an ordinance put on the books creating the office of building inspector, with the intention of consolidating the two offices.

The insurance companies are fretting under the delay, however, and say there is so much work being done now that is not being inspected that as a measure of protection they will perform have to raise their rates. President McElmood of the council board said today that his board would take up the matter at the next meeting. It has been waiting on the aldermen to take action in the matter, but to obviate the increase in rates in prospect, it would take steps at once to have the inspector appointed and take up the building inspector feature later.

BASEBALL TOMORROW.

Game Deferred From Last Sunday
to Be Played.

Tomorrow the game scheduled between the Professionals and the Stags which was postponed from last Sunday, will be played. The lineup of the professionals will include Wetzel, the third baseman of Corning, O., who came here to try out.

The baseball game scheduled between the High school team and a team composed of members of the Draughan and Central business colleges was not played this morning, as the business college team, it is said, backed out.

The High school team indulged in a practice game this morning, however, and will go to Metropolis next Saturday to play the High school team of that place.

THE COUNTY SCHOOL CENSUS.

The Enumerators Are Expected to
Report Next Week.

The first county school census enumerator to report filed the result of his work with County School Superintendent Billington this morning. The report shows an increase of five school children.
The enumerator is Charles Mead, of district No. 38, the Oaks Station neighborhood, and he listed a total of 30 school children between the age of six and twenty years. Last year the district showed only 25.

The other enumerators are still at work and will report as soon as they finished. It is likely all will come in next week. Indications point to an increase in the county school census this year.

CUMBERLAND BUILD NEW LINE.

Will Go to Paris, Tenn., Down the
N. C. and St. L. Road.

The management of the Cumberland Telephone company today announces its acquisition of a private right of way along the N. C. and St. L. road and will build a line from Paducah to Paris, Tenn., taking in all the small towns along the line. This will give the company a territory where it has heretofore been unable to go. The purchasing of the right of way was gone about quietly and is now complete.
Material has been ordered here and will arrive in a short time and work on the new line and will begin before the month is out, it is said.

MR. CHARLES REED

Staff.

Mr. Charles Reed has been offered a commission on Gen. Tyler's staff. Forest's Cavalry, and invited to go with the general to the Confederates' remount at New Orleans, but as he is now a member of Col. Young's staff he had to decline.

AIGER TO QUIT SENATE.

Condition of His Health Renders the
Step Advisable.

Detroit, April 7.—Announcement is made at Senator R. A. Aiger's office in this city that he will not be a candidate to succeed himself in the senate when the legislature meets on January 1 next. Announcement took the form of a letter, which it was stated was received today from the senator. It says:

"Owing to the condition of my health I am compelled to withdraw my candidacy to succeed myself in the United States senate. While it is a great sacrifice to sever a connection of many years' standing with the public affairs of my state, that sacrifice has become necessary."

tinued flow of lava and renewed

ly alarmed the villagers. The

of their property was carried to

THE WEEK'S NEWS IN THE COMMERCIAL WORLD.

Bank clearings this week \$759,658
Same week last year 605,381
Increase 154,277
The bank clearings showed a good increase this week, the first time in several weeks. The movement of tobacco was one of the factors causing the increase. A good deal of tobacco came in this week, some days as high as seventy-five loads a day. T. J. Stahl & Co. received about 300,000 pounds this week, and if next week continues to bring in as heavy receipts they will have received about all their purchase. Prices are very satisfactory, about an average of 6 1/2c around. Last year the crop was bringing only about 5c.
Wholesale report very good business, with collections coming up nicely. High water has interfered with business in some localities, but not much.
Retail trade has been good this week. The weather is a little cool and the season backward, but the close proximity of Easter, which comes next Sunday, has stimulated retail trade.
The second week of regular tobacco sales shows an increase in offerings and receipts, and a slight increase in prices. The report of the inspector for the week follows:
Receipts week 104 hhgs.
Receipts year 1,114 hhgs.
Offerings week 79 hhgs.
Offerings year 129 hhgs.
Rejections week 33 hhgs.
Rejections year 47 hhgs.
Sales week 631 hhgs.
Sales year 631 hhgs.

Dun's Report.

New York, April 7.—R. G. Dun & Co.'s weekly review of trade will say:
Trade has not been perceptibly retarded by the interruption to coal mining except in the immediate vicinity of anthracite mines. High temperatures not only broaden the demand for seasonal merchandise, but stimulate agricultural operations, reopen Northern navigation and start many contemplated building operations. Were it not for a few labor controversies the commercial horizon would be cloudless. But some manufacturing plants will be compelled to suspend if the fuel supply is cut off and structural work is interrupted by demands for higher wages in certain localities.
That the year 1906 started out to eclipse all records is evidenced by bank exchanges, 18 per cent. larger than in the first quarter of the previous prosperous year, while liabilities of commercial failures averaged only 81 per cent to each \$1,000 of solvent payments through the clearing houses which is the lowest commercial death rate for the first three months of any year.
Railway earnings in March were 6.9 per cent. larger than last year, and foreign commerce at this port for the last week showed gains of \$1,129,269 in imports and \$37,959 in exports as compared with the corresponding week in 1905.
Progress in the iron and steel industry has not suffered as yet from the partial suspension of coal mining and new business comes forward each week in great volume. Latest developments are most pronounced in the structural steel division. Next in volume of new business is the tonnage of steel rails that is rapidly closing order books up to the end of the year. Further strength appeared in the hide market.
Failures this week numbered 197 as against 232 last year, and 15 in Canada as against 28 last year.

THIRTY BURIED IN THE RUINS MADE

Boiler Explosion in Vienna Re-
sults in Much Disaster.

Order for Pennsylvania Railroaders
to Report for Work Regarded
As Cheering.

MAXIN GORKY COMING HERE

Vienna, Austria, April 7.—A boiler explosion today at Ellsinger's waterproof factory destroyed the boiler house and some adjoining residences. Thirty persons were buried in the ruins. Two were killed and twenty seriously injured.

Regarded as Encouraging.
Shanokin, Pa., April 7.—The Pennsylvania railroad employees laid off last week, owing to the suspension of mining, are ordered to report for duty Monday. This causes the belief that the operators intend coming to a satisfactory conclusion with the miners next week.

No Reason to Bar Him.
Washington, April 7.—It is stated at the bureau of immigration that no information is on file which would tend to bar Maxim Gorky, the Russian revolutionist and author, who is on his way to this country, aboard the Kaiser Wilhelm Der Grosse. The vessel is expected to reach New York Tuesday.

The Law Will Be Tested.
Boston, Mass., April 7.—Secretary of State Olin has revoked the license of the Metropolitan Coal company on the ground that it violated the statutes in advancing the price of coal \$1 per ton. The entire matter of the right of dealers to boost prices on slight provocation will be thrown in to the courts.

Dowle Is Still Mad.
Laredo, Tex., April 7.—John Alexander Dowle passed through here this morning on his way to Zion City to meet his accusers. He was in his berth and his companions said he was feeling well. It was also said he had been in great rage ever since he started north. The party remains in San Antonio a day and then proceeds to Chicago.

UMBRELLAS AS SHIELDS.

Eruption of Vesuvius Continues, and
New Center Is Formed.

Naples, April 7.—Streams of lava which are diffusing great heat are progressing with considerable rapidity in the direction of Pompeii. From the new crater, which is twenty feet in circumference, the lava has already gone two miles and a half. Hot mud, ashes and black sand are also ejected, which, mixed with rain, produce the so-called caustic rain, which is most damaging to vegetation.
Although the showers of cinders here have been diminished, people can be seen holding up umbrellas as protection against the falling ashes.

The Record Accorded to An Ex-Ken-

Mr. Hendricks was married in this city when he was 80 years of age, and when he was 96 his seventh child was born. He is a native of Somerset, Pulaski county, Ky., having been born there on April 29, 1807, and recalls many incidents of the early days of the Bluegrass state. Mr. Hendricks remained a bachelor until he was 80 years of age when he won the heart and hand of Miss Encarnacion Peters, who was but 21 years old, when she became his bride, July 9, 1887. Mr. and Mrs. Hendricks and their seven children expect to go to Louisville for Home-coming Week.

MATTERS RIGHTED

A SEPARATED FAMILY MAY
SOON BE REUNITED.

Annoying Complications Which Grew
Out of Visit to Native Land
by a Paducah Lady.

Mrs. Mary Arterezza Rossi Viviani, who has been detained in her home in Gouga, Italy, is in a fair way to return to the welcoming arms of her husband, the well known fruit dealer of this city, after a separation of more than two years. The detention resulted from complications arising from ignorance of the provisions of the Italian-American treaty regarding the importation of native Italians to the United States, but with the aid of attorneys and after an endless chain of correspondence the word now comes that all will in a short time be untangled and the wife be permitted to leave her native country and return to Paducah.

It was all brought about by a misfortune to her little son, who is deaf. A provision of the treaty between Italy and this country prohibits the importation of any native Italian who is not sound in mind and body, and any defect such as deafness makes it impossible for the unfortunate applicant to secure passage to this country, and when Mrs. Viviani started to this country after a visit in Italy she was not permitted to leave with the boy.

Attorneys Bagby & Martin were employed by the husband and after months of hard work succeeded in having the matter cleared before the proper authorities, and this morning received a letter showing that the proofs and other papers necessary to prove that the son is an American born boy have been forwarded to James Jeffery Roche, at Genoa, Italy, the American consul at that place, and as soon as they reach him will mean the mother and son may leave at will.

The Week In Society.

HIS DEFINITION.
And what is a girl?
A morsel of ribbon and feathers and lace;
A mischievous elf with an angel's face;
A thorn that will tease you,
A rose that will please you,
A will-o'-the-wisp for eluding your chase—
And that is a girl!

And what is a girl?
A riddle whose meaning no mortal can guess;
With "No" on her tongue when her heart would say "Yes!"
Half artful, half simple,
Half pout and half dimple,
Whose eyes will betray what her lips would repress—
And that's a girl!

A Dull Week.

Twenty-two applications for membership in the church were made yesterday. Morning services were conducted today and will be repeated tonight.

The revival at the Second Baptist church is also receiving excellent attendance and much good work is being done. "Rest for the Heavily Laden" was the text of Rev. Farrar last night, and the little church was packed to overflowing. The revivals are still working among the I. C. shop men, and are encouraged to continue the meeting through next week.

Daily Thought.

"The leaders of men are not the ones who are trying to get ahead of their fellows."

The late elections in Russia would not indicate that that troubled country is to come into the peace it thought all wanted. The wrong element—the fractious class known as constitutional Democrats—were the victors, much to the surprise of the government and the outside world. This faction, cheered on by its success, only promises to become more contented in its demands and it is not predicting without some thought to say they will force further strife and create a bloody insurrection, for the government and the czar will not be overrun roughshod. This is the outlook now and if Russia has a conservative class and it is not strong enough, and willing to do so, to assert itself and get between the autocrats and the socialists of their country more blood must flow in that land. A country with such resources and latent strength as Russia should be able to stand in high places among the nations, but divided as she is will she or can she do so?

There is no doubt but that President Roosevelt is "whetting his appetite" to make war on the trusts. His late consultations with Speaker Cannon Representative Hepburn and others on Judge Humphrey's immunity decision in the packers' case has a significance which the country will grasp. It means that the government's defeat in that suit is only a temporary reverse. The war will be resumed as early as practicable, as the St. Louis Globe Democrat remarks, and it will be pushed on now lies. This may or may not necessitate the enactment of a new statute, or the addition of a provision supplementary to existing law. But come whatever necessarily there may arise the president is "whetting his appetite" for business.

The state when given its racing commission by Gov. Beckham was not surprised. As the Lexington Leader aptly says: "While it was strenuously urged by friends of Governor Beckham that he would not allow political considerations to affect his appointment of the men who compose the new racing commission, yet the names of such astute politicians as Col. Jack Chinn at large, ex-Mayor Charles F. Granger, of Louisville, and Louis des Cognets, of Lexington, furnish food for reflection for those who modestly dissent from this view."

There is a charge which is somewhat substantiated by the conditions, that the votes of the house are retarding much legislation the country is demanding. But it is a poor rule which won't work both ways, and while much needed legislation is retarded much that is not needed is also retarded.

The republicans of Missouri more than held their own in the municipal just held in the state. The Missouri has clearly routed the people. But this is

not surprising; their vigorous efforts in behalf of good government and conscientious fulfillment of their whole duty has proven so beneficial to the state that the people are appreciative. In a few years more Missouri will be always as safely republican as is Illinois.

The building laws of Paducah will never be a complete success until no shack of any character are permitted at least within the fire limits. Let the rule be nothing short of substantial buildings whether large or small, and the dangers of wrecked houses, disastrous fires, etc., will pass away.

The use of the voting machine grows rapidly. In the late elections, though municipal in character, many of those machines were given first trials in some large cities. The voting machine seems to have "come to stay," at least in all enterprising localities.

Ours is a great country. This year the foreign trade will reach three billions. In 1870 it was one billion, and passed two billions in 1900. The growth of 50 per cent in six years is a remarkable record, and it is achieved under the Dingley law.

The senate in Gov. Davis, of Arkansas, who is to succeed Senator Berry, will have a second Tillman in disposition if not talent. Clearly the state senate is degenerating, else why Davis as well as Tillman?

Will Thorne be good this time while acting governor, or will the state be given another Kuechler pardon? May the state escape such another disgrace.

BOTH FOOD AND MEDICINE.

We like best to call Scott's Emulsion a food-medicine. It is a term that aptly describes the character and action of our Emulsion. More than a medicine—more than a food, yet combining the vital principles of both. It is for this reason that Scott's Emulsion has a distinct and special value in all wasting diseases. There is nothing better to remedy the troubles of imperfect growth and delicate health in children. The action of Scott's Emulsion is just as effective in treating weakness and wasting in adults.

RIVER NEWS

River Stages.

Calro—46.7, 3 rise.
 Chattanooga—7.1, 4 fall.
 Cincinnati—38.3, 3.5 fall.
 Evansville—40.9, 2 fall.
 Florence—7, 7 fall.
 Johnsonville—16.7, 1.8 fall.
 Louisville—18.9, 2.2 fall.
 Mt. Carmel—23.5, 3 rise.
 Nashville—21.7, 6.2 fall.
 Pittsburg—10.7, 1.9 rise.
 Davis Island Dam—11.5, 1.5 rise.
 St. Louis—23.8, 4 fall.
 Mt. Vernon—41.1, 3 rise.
 Paducah—10.4, 4 rise.

The river rose 4 last night, this morning the gauge registering 40.1. But little more rise is expected as the rivers above are all falling.

The Dick Fowler got away on time for Calro this morning.
 The Hopkins was the Evansville packet today.

The Kentucky will leave for the Tennessee river tonight.

The Lee line of boats will resume their Cincinnati to Memphis trips next Wednesday. They have been laid up on account of the high water.

The Charles Turner left for the Tennessee river today.

The Margaret left for the Tennessee river today.

The Sallito is due out of the Tennessee for St. Louis tonight.

The Wilford came in from the Cumberland yesterday.

The J. B. Finley Wednesday evening took over the falls the largest tow that has passed there in the history of navigation. The tow consisted of twenty-six coal boats, five fuel barges and one model barge. The coal boats contained 624,000 bushels of coal, the fuel boats 35,000 bushels of coal, and the model barges 2,000,000 pounds of steel in the form of rails. But once before in the history of boating has a tow of any where near this size been taken over the falls.

Capt. Dan Varble, one of the most proficient falls pilots on the Ohio, steered the boat during her perilous trip without mishap, and anchored her in Portland. In charge of Pilots George Clark and Lew Moore she will be started South today on her way to New Orleans.

Capt. Robert Mannlag has command of the boat. But once before, as stated, has a tow anywhere near the size of this one been taken over the falls. About a year ago the big Sprague carried a tow over the falls whose proportions were about two-thirds that of the one taken by the Finley.

River Forecasts.

The Ohio at Evansville, will fall slowly during the next 24 hours, then fall at an increasing rate for several days. At Mt. Vernon, will commence falling tonight or Saturday. At Paducah and Calro, will continue rising during the next 24 hours, then remain stationary for about 24 or 36 hours before commencing to fall. The maximum stage at Calro will be close to 46.7 feet.

The Tennessee from Florence to the mouth will continue falling during the next 36 hours.

The Mississippi, from Chester to Calro, very little change during the next 26 hours.

The Wabash at Mt. Carmel will probably commence falling Saturday.

MOUNT JURY HELD UNTIL MONDAY

Judge Reed Wants a Verdict if Possible.

Noon Today Court Told the Jury He Would Retain Them Two Days More.

THE DOINGS IN COURT TODAY

The jury in the Willis Mount case will not be discharged before Monday morning unless some agreement is reached, this announcement being made at noon to the jury by Circuit Judge William Reed.

The jury has been out since Thursday afternoon at 5 o'clock and from what can be heard is no nearer an agreement than it was when the case was first given into its charge.

Judge Reed called the jury in at noon, just before court adjourned for the day, and announced that he would give them until Monday. "I will be ready at anytime to hear a verdict from you in this case," he stated, "and will hold this open until Monday morning."

The jury was sent to dinner and this afternoon returned to the court house to try to agree.

County Court Actions.

Joseph Henley has qualified as administrator of his wife, Sarah Henley, who was killed on the I. C. here several months ago.

Miss Adine Morton yesterday qualified as administrator of the estate of the late Thomas Morton, her brother.

The Grand Jury's Work.

The grand jury reported again this morning, returning seven indictments and three minutes of the examining court, the latter three marked "dismissed."

The minutes included the case against Will Childers, alias "Yellow Boy," who made his escape from the jail several weeks ago and in stealing a ride on an I. C. freight train near Louisville, fell off and lost four fingers on his left hand. The negro was charged with breaking into the Tom Jones grocery and saloon. The witnesses could not be procured, or the grand jury thought that making him for life came as a judgment and ordered the charge dismissed. Yellow Boy was discharged from the jail this morning.

The minutes in the other cases were against Bernard Shupe, white, and Harrison Chambers, colored, the former charged with giving a worthless check for board, he is indicted under two other counts already. Chambers is charged with knocking out Alonza Caldwell's eye with a bottle. The two were in a fight and in the melee Caldwell was struck by the bottle.

The indictments returned were: One against J. A. Donovan and Will Jackson, white, for obtaining groceries from C. Tucker, alleging they were employed at the Cooperage Co. plant when they were not.

One against Berry Smith, colored, charged with criminally assaulting Nancy Smith, colored.

One against J. T. Norfleet, white, charged with forging the name of Jennie Cowser to worthless checks.

Tom Albritton and Ison Scott, colored, charged with stealing copper wire and selling it to Will Mitchell as their own.

One against Roy Dunlap and Will Albritton, colored, for breaking into the Lem Jones grocery and saloon.

One against Alex Travis, colored, for entering the Mart Coulson plumbing shop one night, building a fire and setting down to sleep by its warmth. He was charged with trespass.

J. D. Adams, white, for maliciously cutting Walter Shelby.

The court acted in several of the cases as follows:
 Adams, found guilty of cutting in sudden heat and passion, fined \$50

and costs.

Roy Dunlap and Will Albritton, pleaded guilty, one year each in the penitentiary.

Alex Travis, one month in the county jail.

The time of the grand jury was extended one week.

Loving's Case Monday.

Monday the case against H. H. Loving for the alleged murder of H. A. Rose, will come up for trial, and it is understood both sides will announce as ready. The defendant was given five years for manslaughter at the first trial but was granted a new trial by Judge Wm. Reed. This is the most important, at least the most interesting case, on the criminal docket.

The Interesting Cases.

The circuit court equity docket shows few cases of importance—none with which the public is unacquainted. The appearance show the cases of the East Tennessee Telephone Co. against the city of Paducah. This is the case where the telephone company enjoins the city from interfering with its business—a result of the fight the city is making to require it to secure a franchise—until the court can pass on the merits of the case. The matter was settled for the time being in Louisville soon after the suit was filed, but the suit has not been disposed of by any means.

The last three suits entered on the appearance docket are brought against Officer Hurley and Thad Terrell, of the local police force. They are for damages for the death of John Tice and for the alleged assaulting of Wm. Foster by the latter officer the alleged assault having occurred following the fusillade in which Tice was killed.

The criminal docket shows several cases against river men for running boats as pilot without license. Most of these cases will be amicably adjusted and will require little time in court.

Suit for Money and Damages.

Lee Greenhaw, of Marshall county, has filed suit in circuit court against Fletcher Terrell and Wm. Ward for \$112 damages claimed sustained in a mule transaction this week.

Greenhaw claims he paid \$145 for a mule which the defendants claimed to be sound when they sold it. The mule, it is alleged, has a defective eye and is ill, and the plaintiff wants his purchase money back and \$112 damages in addition.

The Police Court.

While Otto Jackson, a 14-year-old negro boy is serving time for the crime of "toting" a pistol, the authorities will attempt to solve Jackson's exclusive methods of arithmetic, which have so far proven a puzzle to them.

Jackson was arrested at Ninth and Boyd streets yesterday afternoon by Patrolman E. H. Cross. He had a pistol stuffed down his overalls, and claimed he bought it in Calro, succumbing to the slick tongue of a pawn broker in whose place he had gone to buy a watch.

Jackson stated he worked for a mill in Chicago at 80 cents a day and had worked three weeks. He had \$10.25 when arrested, a pistol for which he said he paid \$4, a gold watch, new chain and several other articles of minor value, and stated he had not been saving his money and how he made his deductions proved a puzzle to the police. They believe he stole something in Calro and will write down to ascertain the facts.

Jackson's age and "greenness" he claimed to be a "country negro" he did not excuse the crime and he was fined \$25 and costs and given ten days in jail for "toting" the pistol in the city court this morning.

Other cases were: Tom O'Neal, white, using insulting language, \$5 and costs; Frank Workman, white, drunkenness, \$1 and costs; John Vincent, white, drunkenness, \$1 and costs and John, alias James, Clawson, colored, fugitive from justice, from Calro, continued.

Mrs. Emmett R. Cunningham is ill at the Cochran apartments, Ninth and Monroe.

Mr. Richeson is a practical man, of years experience, and has the assurance of local capitalists that in event he demonstrates that the plant, which will employ about 16 hands at first, is a success, he will have the necessary assistance to enlarge its operations.
Mr. Richeson is now in the city, and will start to work on the plant at once.

Acquitted of Ugly Charge.
This morning W. P. Autland, of Calloway county, was acquitted of the charge of converting money to his own use. He was charged by the Holcomb-Lobb Tie Co. of having taken \$408.71 given him to buy ties with and converted it to his own use. The evidence was not sufficient to convict him and the jury returned a verdict of not guilty.
Immediately following this action, the attorneys for the tie company filed a suit with the company plaintiff against Autland for this sum of money. The facts in the case developed really a breach of trust, if a breach of anything, and the only way to get the money, if at all, is by suing, hence the suit.

NEW SHOP PROMISED

MUCH NEEDED HOUSE FOR TIN WORKERS TO BE BUILT.

Next Week the Moving of Coal Will Give More Life to Road Traffic.

The I. C. shops will be improved this summer, probably, by the addition of a new tin shop, and this will come as good news generally to the shop employees.

Mr. Wm. Renshaw, superintendent of machinery of the I. C., saw the necessity of a tin shop during his inspection here two days ago, and stated that he would recommend the building of one immediately. The tin shop now is located in the northwest end of the scrap iron storage bins and is small and badly located.

The new shop, as suggested by Mr. Renshaw, will be several times as large as the present quarters, and will be located between the west shop

gates and the freight car repairing shops. Mr. Renshaw intimated that the building would be put up this summer, and local officials are looking for the preliminary plans next week.

The new tin shop has been talked of a great deal and was in a way recommended once before, but failed to receive the ratification of Mr. Renshaw.

Here to Take His Family Away.

Mr. W. R. Miller, formerly assistant general yardmaster of the local I. C., but now trainmaster of the Birmingham and Selma, Ala., branch of the Southern railroad, is in the city preparing to remove his family to Selma.

Mr. Miller likes his new position, which came as a big promotion to him, and is receiving the congratulations of his many friends today. He is succeeded here permanently by J. Sullivan, of Chicago, and T. A. Maple, who has been acting general yardmaster, has been placed back in the capacity of night yardmaster. Other changes made by the appointment of Maple have been rescinded.

Coal Again to Move.

Company coal will begin to move

again on the Louisville division of the I. C. Monday. The mines, after the Kentucky strike settlement, shut down as far as company coal was concerned, and started a general cleaning up of the mines. This work is finished and the I. C. will begin to receive coal mined expressly for it Monday. The coal trains which had been conspicuous on the Paducah district, were conspicuous for their absence this week.

Returns to Duty Tonight.

Conductor Hob Dawes, who participated in the overpowering of James Clawson, the negro who cut Porter Adams and the Cairo and Paducah accommodation train last week, will return to work tonight. Conductor Dawes was not cut, as was reported, but did strain his back severely, and has been off duty since the night of the fight.

New Switches Proposed.

There is a move on foot to install a new series of switches at the I. C. depot to facilitate the switching of trains. At present the arrangement is detrimental to the switching of the accommodation trains which have Paducah as a terminal, and it often causes engineers and fire-

men to make overtime because of the wait in getting back to the shops. It is said the money saved in overtime will more than pay for the improvement. It has been suggested that a main line switch be installed so that cars can be switched into any sidlag from the main line without see-sawing from one siding to another, as now has to be done.

Switchman Rooney, who had a foot cut off in an accident in the N. C. & St. L. yards Saturday night, is improving at Riverside hospital.

Some Personals.

Dick Isaman, caller at the I. C. round house, is out today after a brief illness of fever.

Mr. Joe Walker, foreman of the round house, is acting general foreman of the local I. C. machine shops in the place of R. E. Fulmer who is in Louisville on business.

Paducah Wants One.

Prof. E. C. Payne, principal of the High school, an appointee as a member of the state normal school commission by Gov. Beckham, and will go to Frankfort probably next Wednesday to attend a meeting of the commission on Thursday.

Bowling Green and Richmond, Ky., are the only towns which have offered sites to the state as an inducement to secure a school. Paducah is after one of the two schools and a meeting will be held here shortly to see what can be done towards securing one.

Excursion to Memphis.

On April 15th a special excursion train will leave Paducah Union depot via Illinois Central railroad at 9:30 a. m. for Memphis, fare for the round trip \$2.00, returning—leave Memphis April 16th, at 7:30 p. m. No baggage will be checked on these tickets, which will only be good on excursion train going and coming.

Several railroad officials will be here to witness the demonstration.

Lost His Pocketbook.

G. L. Ragland, of the Woodville section, reported the loss of his pocketbook containing \$100 and some valuable papers, last night. He had been in Paducah on business and was returning home when he missed the pocketbook. Ragland had gotten as far as Maxon's Mill, eight miles out, when he made the discovery of the loss. He returned and reported the matter to the police.

A TALE OF THE THIRD GENERATION

By HARRY LEON WILSON

"And I just know you've got in with a fast set. I met Mr. Milbrey yesterday in the corridor."

"Did he tell you how to make a lovely asparagus shortcake or something?"

"He told me those men you go with so much are dreadful gamblers, and that when you went to Palm Beach last February you played poker for money night and day, and you told me you went for your health?"

"Oh, he did did he? Well, I didn't get anything else. He's a dear old soul, if you've got the copper handy. If that man was a woman he'd be a warm neighborhood gossip. He'd be the nice kind old lady that starts things, that's what Huddy Milbrey would be."

"And you said yourself you played poker most of the time when you went to Aiken on the car last month."

"To be honest with you, ma, we did play poker. Say, they took it off of me so fast I could feel myself ratcheting cold."

"There, you see—and you really ought to wear one of those chamomile-skin chest protectors in this damp climate."

"Well, we'll see. If I can find one that an ace-fall won't go through I'll snare it so quick the man'll think he's being robbed. Now I'll join you ladies to the extent of some coffee, and then I want to know what you two would rather do this summer than."

"Of course," said Psyche, "no one stays in town in summer."

"Exactly. And I've chartered a steam yacht as big as this hotel—all but— But what I want to know is whether you two care to hunk on it or whether you'd rather stay quietly at some place, Newport perhaps, and maybe take a cruise with me now and then."

"Oh, that would be good fun. But here's ma getting so I can't do a thing with her, on account of all those beggars and horrid people down in the slums."

Mrs. Bines looked guilty and feebly deprecating. It was quite true that in her own way she had achieved a reputation for prodigality not inferior to that acquired by her children in ways of their own.

"You know it's so, ma," the daughter went on, accusingly. "One night last winter when you were away we dined at the Haidridge's, in Eighty-sixth street, and the pavements were so sleety the horses couldn't stand, so Col. Haidridge brought us home in the Elevated, about 11 o'clock. Well, at one of the stations a big policeman got on with a little baby all wrapped up in red flannel. He'd found it in an areaway, nearly covered with snow—where some one had left it, and he was taking it down to police headquarters, he said. Well, ma went crazy right away. She made him undo it, and then she insisted on holding it all the way down to Thirty-third street. One man said it might be president of the United States, some day; and Col. Haidridge said: 'Yes, it has unknown possibilities—it may even be a president's wife—just like that. But I thought ma would be delighted. It was all fat and so warm and so cozy it could hardly hold its eyes open, and I believe she'd have kept it then and there if the policeman would have let her. She made him promise to get it a bottle of warm milk the first thing, and borrowed \$20 of the colonel to give to the policeman to get it things with, and then all the way down she talked against the authorities for allowing such things—as if they could help it—and when we got home she cried—you know you did, ma—and you pretended it was toothache—and ever since then she's been perfectly daft about babies. Why, whenever she sees a woman going along with one she thinks the poor thing is going to leave it some place; and now she's in with those charity workers and says she won't leave New York at all this summer."

"I don't care," protested the guilty mother, "it would have frozen to death in just a little while, and it's done so often. Why, up at the Catholic Protective they put out a basket at the side door, so a body can leave their baby in it and ring the bell and run away; and they get one twice a week sometimes; and this was such a sweet, fat little baby with big blue eyes, and its forehead wrinkled, and it was all puckered up around its little nose—"

"And that isn't the worst of it," the relentless daughter broke in. "She gets hogging letters by the score and gives money to all sorts of people, and a man from the Charities Organization, who had heard about it, came and warned her that they were impostors—only she doesn't care. Do you know, there was a poor old blind woman with a daisy, wheezy organ down at Broadway and Twenty-third street—the organ would hardly play at all, and just one wretched tune—only the woman wasn't blind at all, we found out—and ma bought her a nice new organ that cost \$75 and had it taken up to her. Well, she found out through this man from the Organization that the woman had pawned the new organ for \$20 and was still playing on the old one. She didn't want a new one because it was too cheerful; it didn't make people sad when they heard it, like her old one did. And yesterday ma bought an Indian—"

"A what?" asked her brother, in amazement.

"An Indian—a tobacco sign."

"You don't mean it? One of those lads that stand out in front and peer under their hands to see what pale-

"I didn't buy him for myself," replied Mrs. Bines, with dignity. "I wouldn't want such an object."

"She bought it," explained his sister, "for an Italian woman who keeps a little tobacco shop down in Rivington street. A man goes around to repaint them, you know, but here was so battered that this man told her it wasn't worth painting again, and she'd better get another, and the woman said she didn't know what to do because they cost \$25 and one doesn't last very long. The bad boys whistle him and throw him down, and the people going along the street put their shoes up to tie them and step on his feet, and they scratch matches on his face, and when she goes out and says that isn't right they tell her she's too fresh. And so ma gave her \$25 for a new one."

"But she has to support five children, and her husband hasn't been able to work for three years, since he fell through a fire escape where he was sleeping one hot night," pleaded Mrs. Bines, "and I think I'd rather stay here this summer. Just think of all those poor babies when the weather gets hot. I never thought there were so many babies in the world."

"Well, have your own way," said her son. "If you've started out to look after all the babies in New York you won't have any time left to play the races. I'll promise you that."

"Why, my son, I never—"

"But sis here would probably rather do other things."

"I think," said Psyche, "I'd like Newport—Mrs. Dreimer says I should not think of going any place else. Only, of course, I can't go there alone. She says she would be glad to chaperone me, but her husband hasn't had a very good year in Wall street, and she's afraid she won't be able to go herself."

"Maybe," began Mrs. Bines, "if you'll offer—"

"Oh! she'd be offended," exclaimed Psyche.

"I'm not so sure of that," said her brother, "not if you suggest it in the right way—put it on the ground that you'll be quite helpless without her, and that she'd oblige you world without end and all that. The more I see of people here the more I think they're quite reasonable in little matters like that. They look at them in the right light. Just lead up to it delicately with Mrs. Dreimer and see. Then if she's willing to go with you, your summer will be provided for; except that we shall both have to look in upon Mrs. Juzzlebraggin here now and then to see that she doesn't overplay the game and get sick herself, and make sure that they don't get her vaccination mark away from her. And, ma, you'll have to come off on the yacht once or twice, just to give it tone."

So naturally and so gently they stimulate and regulate and strengthen that they have been nicknamed "The Little Velvet Workers."

When a man's liver is working properly, the bowels are regular and the kidneys are active and healthy, what a joy it is to live. You get up in the morning feeling rested and bright after a good night's sleep, with a keen appetite for breakfast and a healthy relish for each mouthful, and when you go out the air smells good and you fill your lungs with pleasure; the sun shines, the birds sing, your every sense is acute and appreciative, the blood bounds through your veins, carrying life and activity to every minute cell and tissue, your bones are high, your mind clear, your spirits high, you step buoyant, and you think God, that everything is so beautiful and that it is so good to live, that everything is so beautiful and that it is so good to live, that everything is so beautiful and that it is so good to live.

A NOVEL IDEA.
Grand Trunk's Unique Device for Interesting the Tourist and Pleasure Seeker.

A traveling exhibition illustrating the charms of Canada as a holiday, hunting, fishing and camping resort, has been put into commission by the Grand Trunk railway system.

It consists of a car fitted up inside as an art gallery with bromide enlargements made from direct negatives of delightful scenes in "The Highlands of Ontario," including choice bits from the Algonquin National park of Ontario, Georgian Bay, the Muskoka lake, Lake of Bays, Moganawaw river, Lake Nipissing and the French river, the famous Tomagami region, Kawartha lakes, Rideau lakes, and the principal cities of Eastern Canada. The car also contains mounted fish, from Canadian waters, mounted game heads, stuffed birds, etc., making a unique collection of attractive features that will appeal to the tourist and sportsman. A representative familiar with all the various districts is in charge of the car, and has a plentiful supply of descriptive matter, maps, etc.

The car will go on through the states of Mississippi, Alabama, Kentucky, Indiana, Ohio, Pennsylvania, West Virginia and New York. The tour in the United States will occupy about three months, and in that time seventy-two towns will be visited.

The southern passenger agent of the Grand Trunk is in charge of the car, which is located at the I. C. crossing at Eleventh and Broadway. It will be open to the public from 6 to 9 tonight and from 9 a. m. to 4 p. m. Monday.

Stearns, druggist, Shillsburg, Wis., writes, May 20, 1902: "I have been selling Ballard's Horsehound Syrup for two years, and have never had a preparation that has given better satisfaction. It should always be kept in the house for cases of emergency. 25c, 50c and \$1.00. Sold by Alvey & List."

FOR WOMEN ONLY.

There are good and substantial reasons why intelligent people and physicians as well, employ Dr. Pierce's Favorite Prescription for the cure of diseases and weaknesses peculiar to women.

In the first place, it is not a cure-all, serving only a single purpose of restoring to the system the elements of health, only those peculiar weaknesses and maladies incident to women. Besides it is the only medicine put up for sale through druggists for the cure of such ailments, all the ingredients of which have the endorsement of leading medical practitioners and writers, as being the very best known remedies for the ailments for which "Favorite Prescription" is advertised. All this will be learned in the reader's full satisfaction by perusing a booklet of extracts compiled by Doctor Pierce from standard authorities of the several schools of practice, and which will be sent free to any address upon request for same, mailed to Dr. R. V. Pierce, Buffalo, N. Y.

In the second place, Dr. Pierce's Favorite Prescription is the only medicine for women's peculiar weaknesses and ailments, all the ingredients of which are printed upon the bottle wrapper in plain English, so that all who take it may know exactly what they are using.

A further reason for the unprecedented popularity of the "Favorite Prescription" is that it is a medicine of such a nature as to be found in the fact that it contains not a drop of alcohol—pure, triple-refined glycerine, of proper strength, being used instead, both for extracting and preserving the medicinal principles extracted from such roots of native, medicinal, forest plants as are employed in its composition. The ingredients of this medicine are all of the highest quality and of the most reliable kind.

Now, in this connection, it is well to bear in mind, that, as it is a medicine, yet it is a fact that Dr. Pierce's Favorite Prescription is the only medicine for women's peculiar weaknesses and ailments that does not contain alcohol and that too in large quantities. This fact can be easily proven, and yet it is a fact well known to all the best physicians that alcohol, even in small quantities, when long continued is very harmful, and especially so to the female system. While the effect of spirituous liquors and liquors, sold under various names, many at first be to excite, brace-up and mildly support the system for a brief time, yet a reaction comes sooner or later and the patient is worse off than before. Besides, a craving for alcoholic stimulants has gradually fastened itself upon the poor, debilitated, suffering woman—a malady generally more to be dreaded than the original affliction.

Board of Health Wants Absorbing Tiling in Gutters.

The board of health has figured out a way of better surface water drainage where there are no brick gutters to carry off the water, and run will prove cheaper than to bury the dead and take care of the sick a result of bad drainage.

"We do not intend to throw oil on the stagnating pools in Paducah, as has been suggested in Louisville," a member of the board stated this morning. "but will drain the pool and have no water to throw oil on."

COLORED NORMAL

SCHOOL AUTHORITIES TO INAUGURATE THIS FEATURE.

At Next Monthly Teachers' Meeting Work of Next Year Will Be Outlined.

The colored school teachers will this year receive benefits and advantage of a normal school training, the school authorities intending to inaugurate the same feature among the colored teachers as was inaugurated last summer among the white teachers. The general improvement, stamping the experiment as a success, encouraged the step, and Prof. E. W. Benton, principal of the Lincoln school at Ohio and Eighth streets, will likely have charge of the school.

It is not to be devoted to city teachers exclusively, but to county colored teachers as well, and the course of work is being outlined now that no delay will be occasioned after school has closed.

There are about sixteen city teachers in the colored schools, and eleven in the county. This will make a total of twenty-seven teachers to attend, and the same rules applied last year in the white normal school will be applied this year among the colored teachers. In fact the school is to be a duplication of the white school of last year.

The success of the venture among the white teachers prompted us to

WILL TELL THE TRUTH

MUTUAL LIFE LEGISLATIVE AGENT IN NEW YORK CITY.

Talks Right Out, Saying He Won't Be Made a Scapegoat, Etc.

New York, April 7.—Andrew C. Field, former legislative agent of the Mutual Life Insurance company, gave out a statement today declaring he never gave a bribe in his career, that he was prepared to vindicate himself completely; that he intended to tell the whole truth and that he had saved the Mutual hundreds of thousands of dollars. Fields recited the stories concerning the "House of Mirth" at Albany are malicious libels and that he never had any business relations with Andrew Hamilton. The contingent fund of \$600,000 Fields said, will be satisfactorily explained. Fields asserted, "all these trustees of the Mutual who are now pointing with the finger of scorn at me were aware of all I was doing in connection with the legislative work of the Mutual and when they say they were ignorant of the character of my work they are saying what is untrue."

"I am here to challenge them in every such statement they may make or have made. I do not propose that men associated with me in the Mutual shall destroy my reputation to further their private ends. I am prepared to tell the truth no matter who
